EDUCATION

University of Prizren "Ukshin Hoti"

2019 - 2025

BSc in Computer Science, Specialization in Software Design | Prizren, Kosovo

Technical Skills: TypeScript | JavaScript | React | Next.js | HTML5 | CSS3 | Tailwind CSS | Zustand | next-intl | Node.js | Express.js | REST APIs | PostgreSQL | Drizzle ORM | MongoDB | Appwrite | Zod | Git | GitHub Actions | Docker | Vercel | GSAP | Framer Motion | React Three Fiber | Accessibility

WORK EXPERIENCE

Self-employed | Prizren, Kosovo - Remote

Independent Frontend Developer

Jun 2024 - Present

- Deliver React and Next.js projects from discovery through deployment, owning requirements, responsive UI, API integration, client feedback, and maintenance.
- Build accessible, multilingual interfaces and reusable components, translating client requirements into production-ready web experiences.

Demiraj Concepts | Biel-Bienne, Switzerland

Web Developer & Graphic Designer (Freelance / Part-time)

Sep 2022 - Jan 2026

- Delivered and maintained 10+ Swiss client websites from brief to launch, translating brand systems into responsive interfaces and reusable components.
- Managed scope, timelines, revisions, and delivery in an asynchronous Switzerland-Kosovo workflow; produced 50+ supporting brand and motion assets.

StarLabs | Prishtina, Kosovo

Web Developer Intern

Feb 2024 - Apr 2024

- Shipped React interfaces connected to Node.js, Express.js, and MongoDB under senior-engineer code review.
- Resolved 20+ frontend and API defects and delivered fixes through reviewed Git pull requests.

OPEN SOURCE CONTRIBUTIONS

Codenotch (1k+ GitHub stars) | Open-Source Contributor

Sep 2026

Swift, XCTest, Bash, GitHub Actions, macOS

- Fixed screen-edge drag geometry so the settings handle remains visible across all four placements and secondary displays; added regression tests.
- Corrected local development signing detection to require a valid code-signing identity; added an automated shell test harness and CI check.

PROJECTS

NTSH BELI - B2B Web Platform

2026

Next.js, React, TypeScript, PostgreSQL, Drizzle ORM, Vercel Blob, Resend | [Live](#)

- Built a production web platform for an electrical-products distributor with a catalog covering 13 product categories and a protected staff administration area.
- Designed relational data models for categories, series, and products; implemented product management, image uploads, Zod validation, and quote requests with transactional emails.

Fibo - Strategic Brand Studio Website

2026

Next.js, React, TypeScript, next-intl, GSAP, React Three Fiber | [Live](#)

- Designed and developed a Spanish/English website for a Mexican brand studio with localized routes and responsive layouts.
- Built scroll-driven storytelling and an interactive WebGL gallery with keyboard-accessibility and reduced-motion support.

Hireon - AI Resume Analyzer

Jun 2025 - Nov 2025

React, TypeScript, Tailwind CSS, Zustand, Puter.js, Claude 3.7 Sonnet, Docker | [Live](#)

- Built the application frontend with reusable components, custom hooks, centralized state, asynchronous API handling, and error states.
- Implemented a client-side PDF workflow and AI-powered feedback for ATS compatibility, resume weaknesses, and keyword coverage; deployed with Docker. [Code](#)

ADDITIONAL

Microsoft Azure: AZ-900, AZ-104, AZ-305, AZ-700 | **Training:** iOS Developer Programme; Graphic Designer Programme

Languages: Albanian (native); English (C1); German (A2, currently studying B1)

Degree recognition: ZAB comparability to a German bachelor's degree. | **Availability:** Open to remote international opportunities and relocation.
